

Subject: Access Details and Important Information Regarding AIM SUPREME Panel

Dear - user,

I hope this message finds you well.

I am pleased to share that your access to the AIM SUPREME user panel has been successfully set up and is now live.

Please keep this information confidential for your security. Never share your login credentials with anyone. Our staff will never ask for your password.

Important Information About the Panel:

The AIM SUPREME panel includes an Experimental Functions section. These features are still in testing and have not been fully verified by our team. Usage of these features is at your own risk. A warning will be displayed at login, asking if you'd like to enable experimental features (Yes/No option).

In case of game updates, please consult with our staff before using experimental tools to avoid any issues.

Also note that server stability may sometimes be affected, which can impact safety status. We highly recommend using experimental features only when marked as safe. When unsure, confirm with support first.
